**Description :**

An intensive bio-cellulose sheet mask harnessing the brightening power of fermented white ginseng visibly tackles dullness, look of fine lines and dark spots in just 10 minutes.

It's believed that the antioxidative power of ginseng has been used in skin care since the 14th century. Today, Sulwhasoo draws on that rich Korean history, modernizing the natural ingredient via a two-week fermentation process that concentrates the brightening properties of white ginseng saponins and polysaccharides. Pairing the potent serum with an innovative material 500 times denser than regular pulp, this ultra-fine sheet mask hugs the face like a second skin so the brightening formula can dive right in and penetrate deeper.

**How to Use :**

Use up to twice weekly, after applying Snowise Brightening Water. Leave on for twenty minutes. After removing the mask, gently pat remaining serum into skin.
